THE GREAT INVENTION OF THE AGE!

Steam Supplanted!—Gas Triumphant!!

THE first half of the nineteenth century will be recorded as the age of Steam. It has passed, and with it will pass the steam engine with the things that were.

The second half of the century will be known as commencing the age of Gas—an agent destined not only to light but to exhibiting the world. The age has now commenced, and with it is now introduced the Gas Engine.

Professor John C. F. Salomon, after twenty-six years of close observation upon the experiments of his own and of others in attempts to make the principle of the condensation of carbonic acid gas available as a mechanic motor, has perfected the same; and, having just received letters patent for his "Improved Carbonic Acid Engine," now offers to dispose of rights for the use thereof to the United States government, and to individuals or to companies the rights of States, counties, or cities.

The immense saving of money and labor, and of human lives and suffering, secured by the use of this new motor, will inevitably insure its speedy adoption in all places where steam power is now used, and in thousands of other places where the great expense, bulk, and weight of the steam engine has precluded its use.

This new motor may be applied to all purposes as a propelling agent, from the single-horse power for the cotton-gin to the two thousand horse power for ocean steamers, with the expense less than that required by the steam engine, of boilers and furnaces, fuel and firemen, and of bulk and weight—100 tons weight sufficing for the same power of 1,900 tons of the steam engine.

These facts are established by the experimental engine of

These facts are established by the experimental engin

These facts are established by the experimental engine of twenty-five (25) horse power, now "working well" at Cincinnati, as noticed in the following from the Cincinnati "Nonpareil," of the 18th instant:

"We are pleased to state that J. C. F. Salomon, late of this city, has received a patent for his motor of carbonic acid gas, in its application to an engine. The successful experiments of this invention were not long since given in the "Nonpareil." The same gentleman has received another patent for the steering and propelling power."

Also, rights for the use of ms. "Improved Propering and Steering Apparatus," one peculiar advantage of which gives the pilot such complete control of the vessel, independent of the engineer, that he can "right-about-face" a man-of-war in less time than is required to load her guns. Also, rights for his "Improved Spring Saddle," for millitary and common purposes, designed for the greatest possible comfort of both horse and rider.

THE UNDERSIGNED respectfully inform their patrons and friends, and the public generally, that they have lately opened an office over the Exchange Bank of Selden, Withers & Co., on 7th street, in the city of Washington, D. C., for the transaction of business as General Agents, and especially as Agents for the prosecution of claims against the Government, and for buying and selling of lands and securing the titles thereof. The junior partner (J. Men. Lathara) is a lawyer by profession, and will attend to any business in the limits of the District. The senior partner, (Richard M. Youns,) having been Commissioner of the General Land Office, and become familiar with the titles and localities of the public lands, and having been also a lawyer and judge for many years, persuades himself that he will be able to render satisfaction in any business which requires a knowledge of the laws and of the country where capital ists may desire to invest their funds.

Liberal advances will be made upon claims entrusted to their agency, when of an unquestionable character, They beg leave to refer to Messrs. Selden, Withers & Co., and members of Congress generally.

Through in twenty-two and a half hours.)

This Line to Pittsburg over the Baltimore and Susquehanna and Pennsylvania Central Railroads is now in successful operation. By it passengers leave Baltimore at 7½ p. m. (half an hour after the time of arrival of the evening train from Washington) and proceed the Harrisburg, where they are transferred to the Central Railroad train, and proceed immediately on without delay, crossing the mountains in daylight, and arriving in Pittsburg at 6 p. m. the day after starting. The entire distance is performed by railway, with the exception of 25 miles, which is done in first class coaches.

PASSENGERS FROM THE WEST

Leave Pittsburg in the cars of the Central Railroad at 7 a. m., and arrive at Harrisburg at 4 the next morning, where the Express Train of the Baltimore and Susquehanna Railroad will be in waiting, and proceed immediately on to Baltimore, arriving there at 8 s. m., in time for the train to Washington, which leaves at 8½ a. m.

GAUTIER'S HERB CANDY,

For Coughs, Colds, Bronchitis, Asthma, etc.

This invaluable Candy has the extraordinary property of immediately relieving coughs, colds, hourseness, difficulty of breathing, bronchitis, asthma, and huskiness of the throat. It operates by dissolving the congealed phiegm, consequently causing a free expectoration. Those who are troubled with that unpleasant tickling in the throat, which deprives them of rest night after night, by the incessant cough which it provokes, will, by using this Candy, find immediate relief.

The subscriber, in presenting this Candy to public notice, wishes to be expressly understood that he does not claim for it any miraculous curing properties, nor does he present it with a long string of certificates of recommendation, as he considers these altogether needless.

This Candy is composed of xis simple ingredients, principally of herbs, which are known to be very efficacious in the cure of diseases resulting from colds, and some of which, being rather nauseous in their natural state, would deter many from resorting to them: but, when made into a candy, become palatable, without losing any of their valuable properties.

It has been prepared at the suggestion of one of our most cuinent physicians, and has been used by many of his and my personal friends with signal success, and at whose carnest solicitation I have been induced to enter largely into its manufacture, assured by him and them that when generally known and tried it will supersede all the various cough candies and mixtures now in use.

As for myself, I am confident, from the ingredients of which it is composed, that, should it not effect an entire cure, it can do no injury even to the most delicate in health, and therefore have no hesitancy in introducing it to the citizens of Washington and vicinity.

Directions for use: Use one stick per day—in the morning before breakfast, in the middle of the day, and at night on going to bed. Price 12½ cents.

Prepared and for sale, wholesale and refai

WONDERFUL DISCOVERY:

"NONE NEED DESPAIR."

All must admit there never has been given such a mass of genuine testimony in favor of any other medicine. Give it a trial! It cures when all other remedies have failed. Greater weight of testimony cannot be given—from the first men in this country.

BALTIMORE, Sept. 18, 1861.

GENTLEMEN: After a full and satisfactory trial of the medicine prepared by you, and very generally known as Dr. Hampton's Vegetable Tincture, which you recom-Dr. Hampton's Vegetable Tincture, which you recommended me to use as a relief for the deblity and general prostration of my system, the result of taking three bottles of this wonderful compound has, I am pleased to say, resulted in a restoration of strength, a keen appetite, and an activity of body which I have not enjoyed for a long time. So satisfied am I of the virtues of this medicine, that I have confidently recommended it to many of my friends and acquaintances, and am happy to learn that in a great majority of cases the most beneficial results have stamped the infallibility of the Tincture. In my own case, I am satisfied that your advice to me to give it a trial has, under the blessing of a kind Providence, resulted in a restoration to health, for which I am truly thankful.

Mannent Cure of Dyspepsia.

Messrs. Mortimer & Mowbray—Gentlemen: This is to certify that in the year 1843 I was attacked with a nervous affection, in consequence of Dyspepsia or Indigestion, which continued some eighteen months, during which time my sufferings were intense, both of body and mind. I tried every thing I could think or hear of, (as there was much sympathy for me,) and at length all eforts failed to cure me. I became much weakened, and could walk but a very short distance at a time, and was often in the act of failing upon the pavement, (I would stop in some door or alley to prevent it.) in consequence of frequent palpitations; and, from what I could learn, I supposed I had disease of the heart, from frequent distension pains about the same; as also my chest and abdomen—the latter being much distended. At this stage of my disorder I could neither earl, sleep or walk with any satisfaction to myself. Life seemed to be a burden to me. My feelings were gloomy beyond description.

I at length heard of Dr. Hampton's Vegetable Tincture, and made trial of it. I had but taken the farat dose when I felt a change for the better, and hope immediately sprang up. I continued, with the use of this invaluable Tincture, to improve daily, until I had taken the contents of three bottles, which, under Divine Providence, made a perfect cure of me.

I found I had an excellent appetite, and could partake of any food, which I could not do for years previously without the most distressing sensations. I now enjoy uninterrupted good health, and have done so for the last six years; and would say to all afflicted as I have been, to east aside your prejudices, and try Humpton's Vegetable Tincture. Any information beside this but meagre description of my case will be given cheerfully for the benefit of the afflicted. Yours, would be the provide
